

CENTER CONSOLE YACHTS™

HCB CENTER CONSOLE YACHTS

From the moment you read the name you know you're about to encounter something unique.

Specifically, it is the careful splicing of raw, offshore prowess and refined, yacht-caliber luxury.

It's a category we invented...because today's custom buyer is looking for something that did not previously exist.

Offshore sportfishing yachts have long been fraught with compromise; speed vs. stability, range vs. performance, and luxury vs. versatility. HCB has eliminated these, with a balanced blend of everything on the custom yacht buyer's wish list—except trade-offs.

Let your imagination and indulgences converge, and discover once and for all, that compromise is a thing of the past.

THE ARTFUL FUSION OF PERFORMANCE, INNOVATION & LUXURY.

WHEN REAL CHANGE IS CALLED FOR, TRUE INNOVATORS CREATE IT.

CRUCERO EXPERIENCE

CENTER

CONSOLE

YACHTS

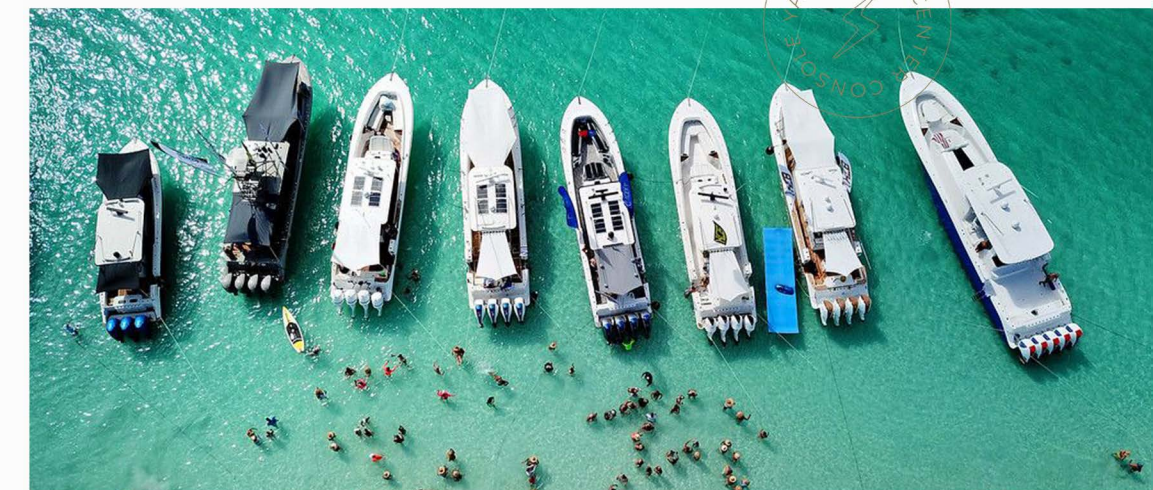

HCB's Crucero Experience™; named for the Spanish term meaning 'cruise or journey' it is far more than a customer's journey from consideration to commissioning of their finished custom yacht. It is embodied in the very fiber and culture of our company at every turn, in everything we do, and how it ultimately enhances our customer's enjoyment of owning a Center Console Yacht. After all, creating a craft that is a reflection of it's owner, is as much a part of the journey as any waterborne adventure you take aboard. It's time to experience your vision in a much larger way.

REFOCUSSED HERITAGE

CENTER

CONSOLE

YACHTS

The HCB story is nearly 50 years in the making. With roots tracing back to one of the most respected names in offshore fishing, the legendary ride of our proven deep-v hulls is the formidable foundation we have built our company around. By preserving the best parts of where we came from, and re-imagining what we can be, we have an equation for alchemy, and a destiny of success.

Few yachts combine the size, attitude, and versatility to truly dominate the water like our 42' LUJO. Refined, gutsy, and classy—all at the same time.

We are constantly on a quest to create a boat that offers refined luxury and powerful performance, and our new generation 42' LUJO is the pinnacle of a premier ride.

Powered by Trip or Quad Yamaha (425) or Quad Mercury (450).

A view from the cockpit of a white motorboat looking forward over the water. The boat has a white cabin with a large windshield and a dashboard with two electronic displays. The water is choppy, and a distant shoreline with buildings and a crane is visible under a blue sky with clouds.
